

VERMONT

# Teaching and Learning Conditions Initiative

Great Public Schools for Every Child

What works, what doesn't — what you need:  
**TELL US ABOUT IT!**

We all know the connection between working conditions and how well students learn.

The survey will be conducted from  
**March 30 to April 17, 2009**

For the first time, your Association will be asking all of you about what it's like to work in your classroom, your school, your district—and all it takes is 10-20 minutes of your time. The Vermont-NEA Teaching and Learning Conditions Initiative will ask you to take a **web-based, anonymous survey** in an effort to make teaching and learning conditions better for you and better for students.
